DISHA Internship Program

(Indian Institute of Technology Hyderabad invites applications for 6-month full-time internships under DISHA Project.)

DISHA – *Digital Intelligence System for IITH Advancement* is IITH’s flagship digital transformation initiative. It aims to create a seamless, human-centric, and intelligent campus ecosystem using Agentic AI and latest web technologies. It integrates academics, research, administration, and student services into a unified digital platform that streamlines processes and enhances everyday experiences for various stakeholders.

Why DISHA Matters?

DISHA is shaping a future-ready IITH by equipping students, faculty, and professionals with smart tools, data-driven insights, and transparent workflows. Anchored in the vision of Viksit Bharat 2047, DISHA strengthens innovation, inclusivity, and institutional excellence - positioning IITH as a model for next-generation higher education.

Be Part of DISHA

Whether you’re a student eager to learn and build or a professional driven to create meaningful impact, DISHA offers the opportunity to work on real, large-scale transformation and contribute to the nation-building vision of Viksit Bharat through technology with purpose.

DISHA isn’t just a system—it’s IITH’s digital path towards a Viksit Bharat.

Available Internship Positions:

- **MERN Full Stack Developer**
- **UI/UX Developer**
- **Business Analyst**
- **AI / ML Developer (AI Models & Applied AI)**

Internship Details:
